### R ggplot2 theme\_set colorblind or dichromat color?

In R ggplot2 are you able to theme\_set(theme\_grey() + "colorblind\_function" at the top of the code rather than adding + scale\_color\_colorblind() to each plot? Some ggthemes I've used in the past: sh ...

### R ggplot2 geom\_jitter: plotting all zeros

In R ggplot2, when I plot all zeros and use geom\_jitter(), some variations are automatically added to zeros. How can I undo that? I still want all points at 0 y axis. y = rep(0,100) x = rep(c("A","B ...
